iPhone + Safari

Email or Google account

OKX account, or open one from our link

USDT balance from $5

INSTALL

1 Tap the link you received

It opens in Safari

Got the app link in a chat? Tap it once and it opens in **Safari**. If it opens inside another app, tap ··· at the top and choose **"Open in browser"**.

INSTALL

2 This is the app page in Safari

Look at the bottom of the screen

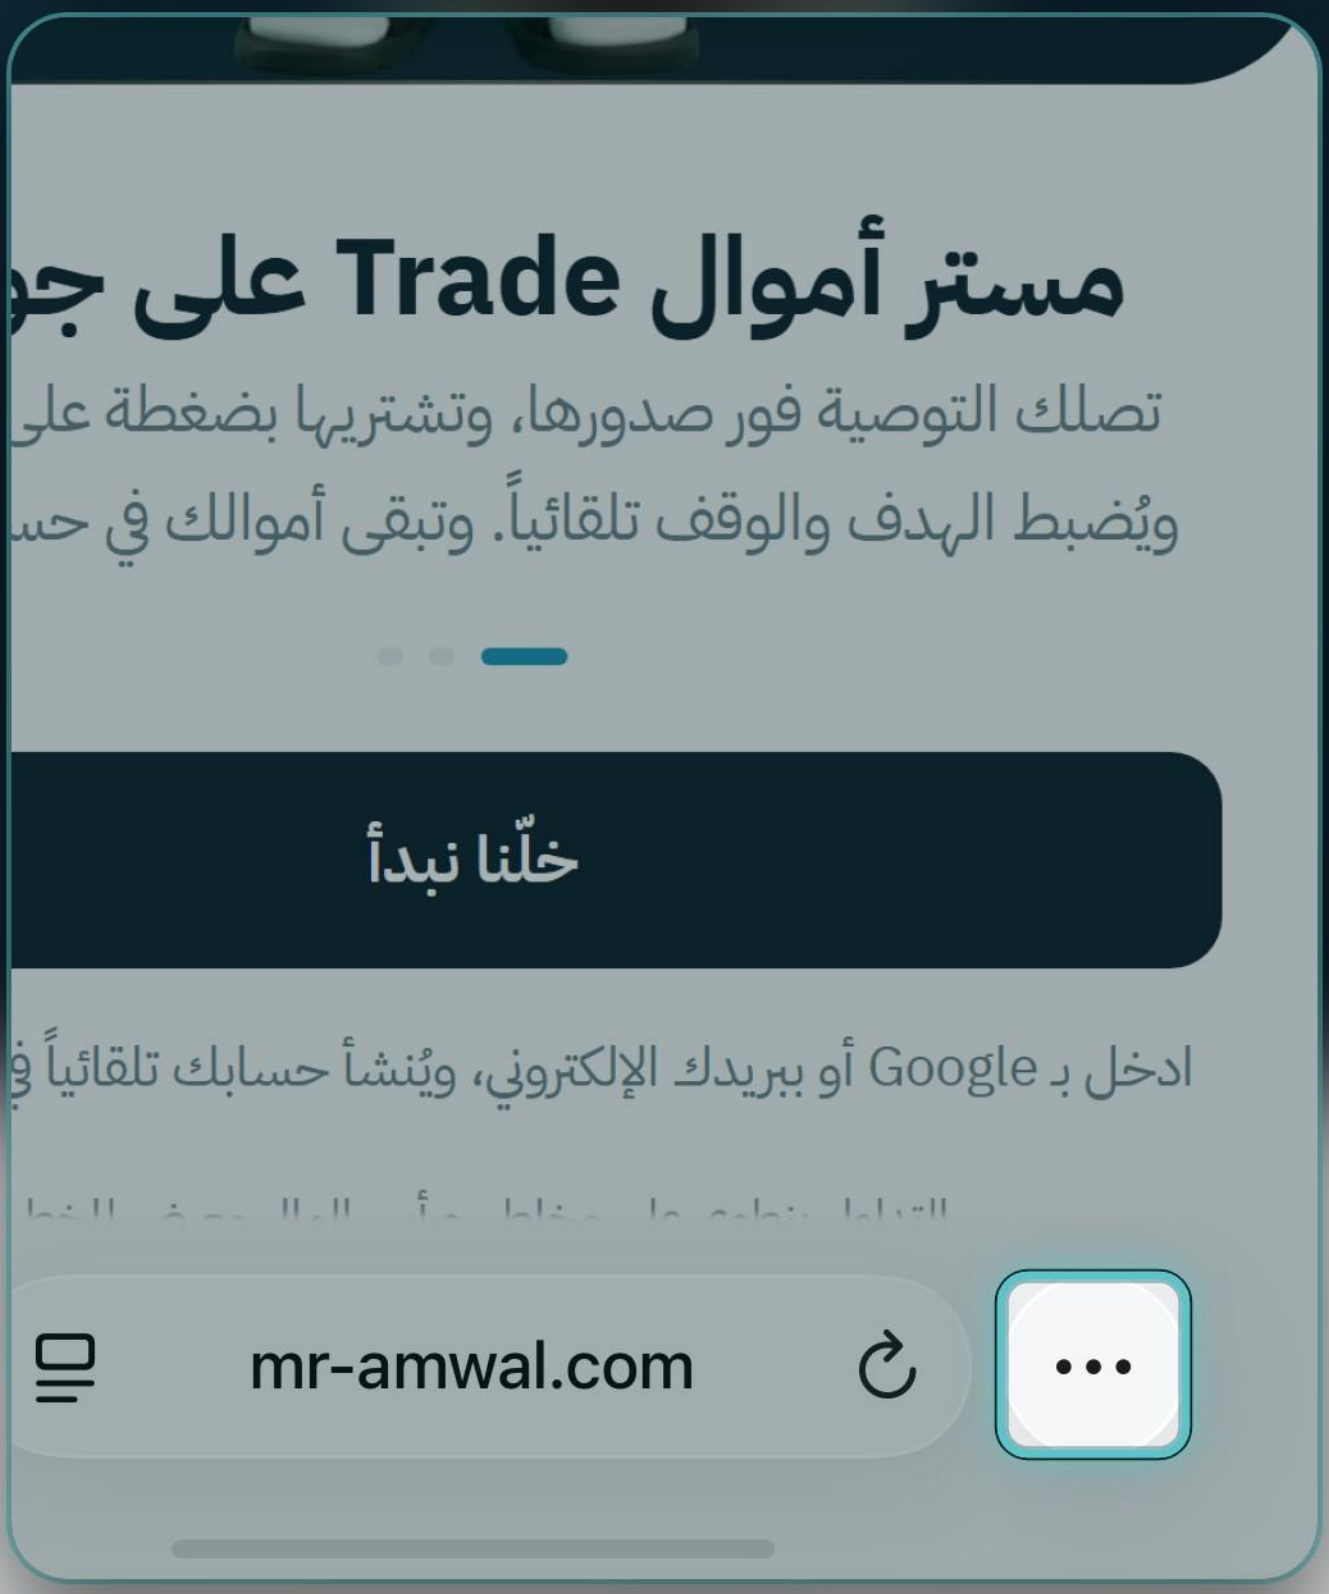

Don’t tap the start button (خلّنا نبدأ) yet: first we add the app to your screen. At the bottom there is a bar showing mr-amwal.com, and next to it, on the right, a button with **three dots** ⋯.

INSTALL

2 Tap ··· at the bottom right

Older iPhone? Tap Share ⇪ at the bottom centre

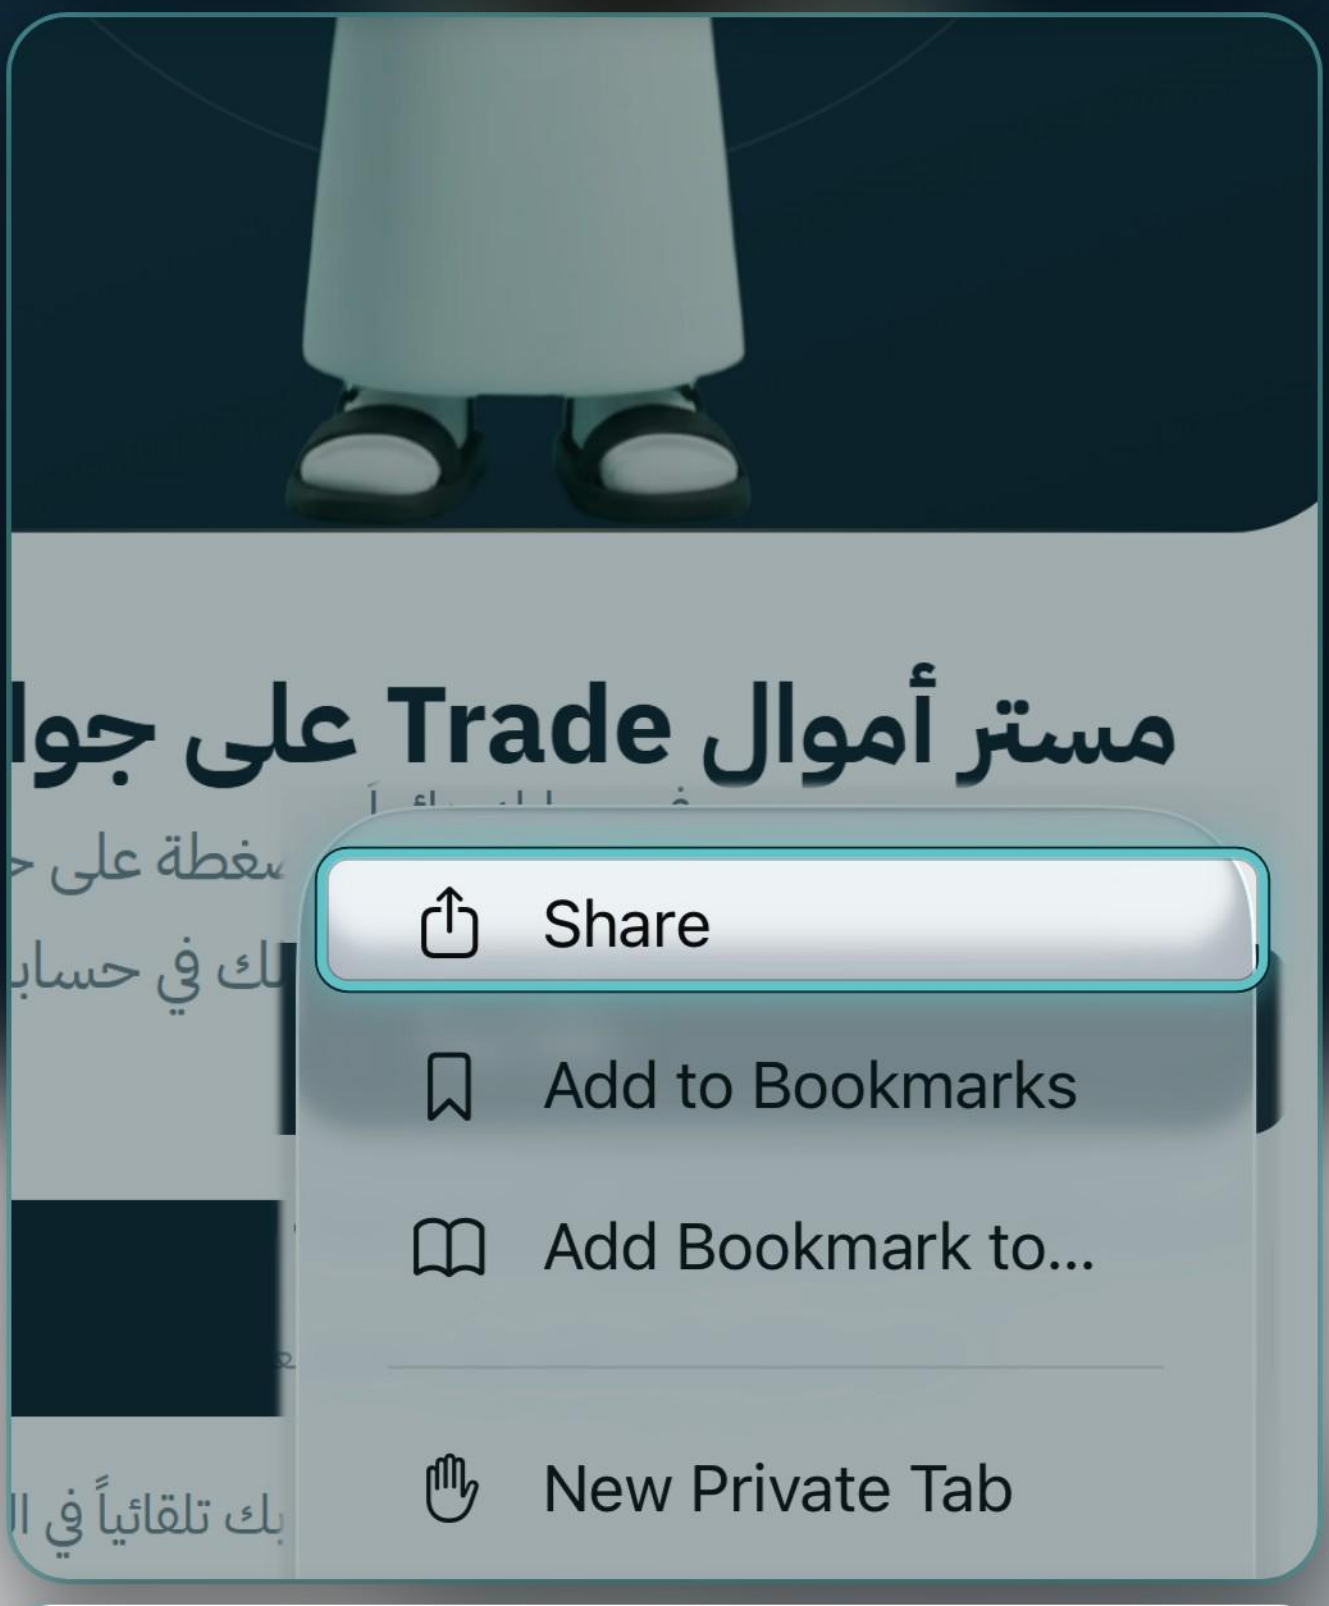

Tap the **three dots** ···. Can’t see them? Your iPhone runs an older iOS: tap the Share button ⇪ (a square with an arrow) at the bottom centre, then continue from step 4.

INSTALL

3 Choose “Share”

The first option in the menu

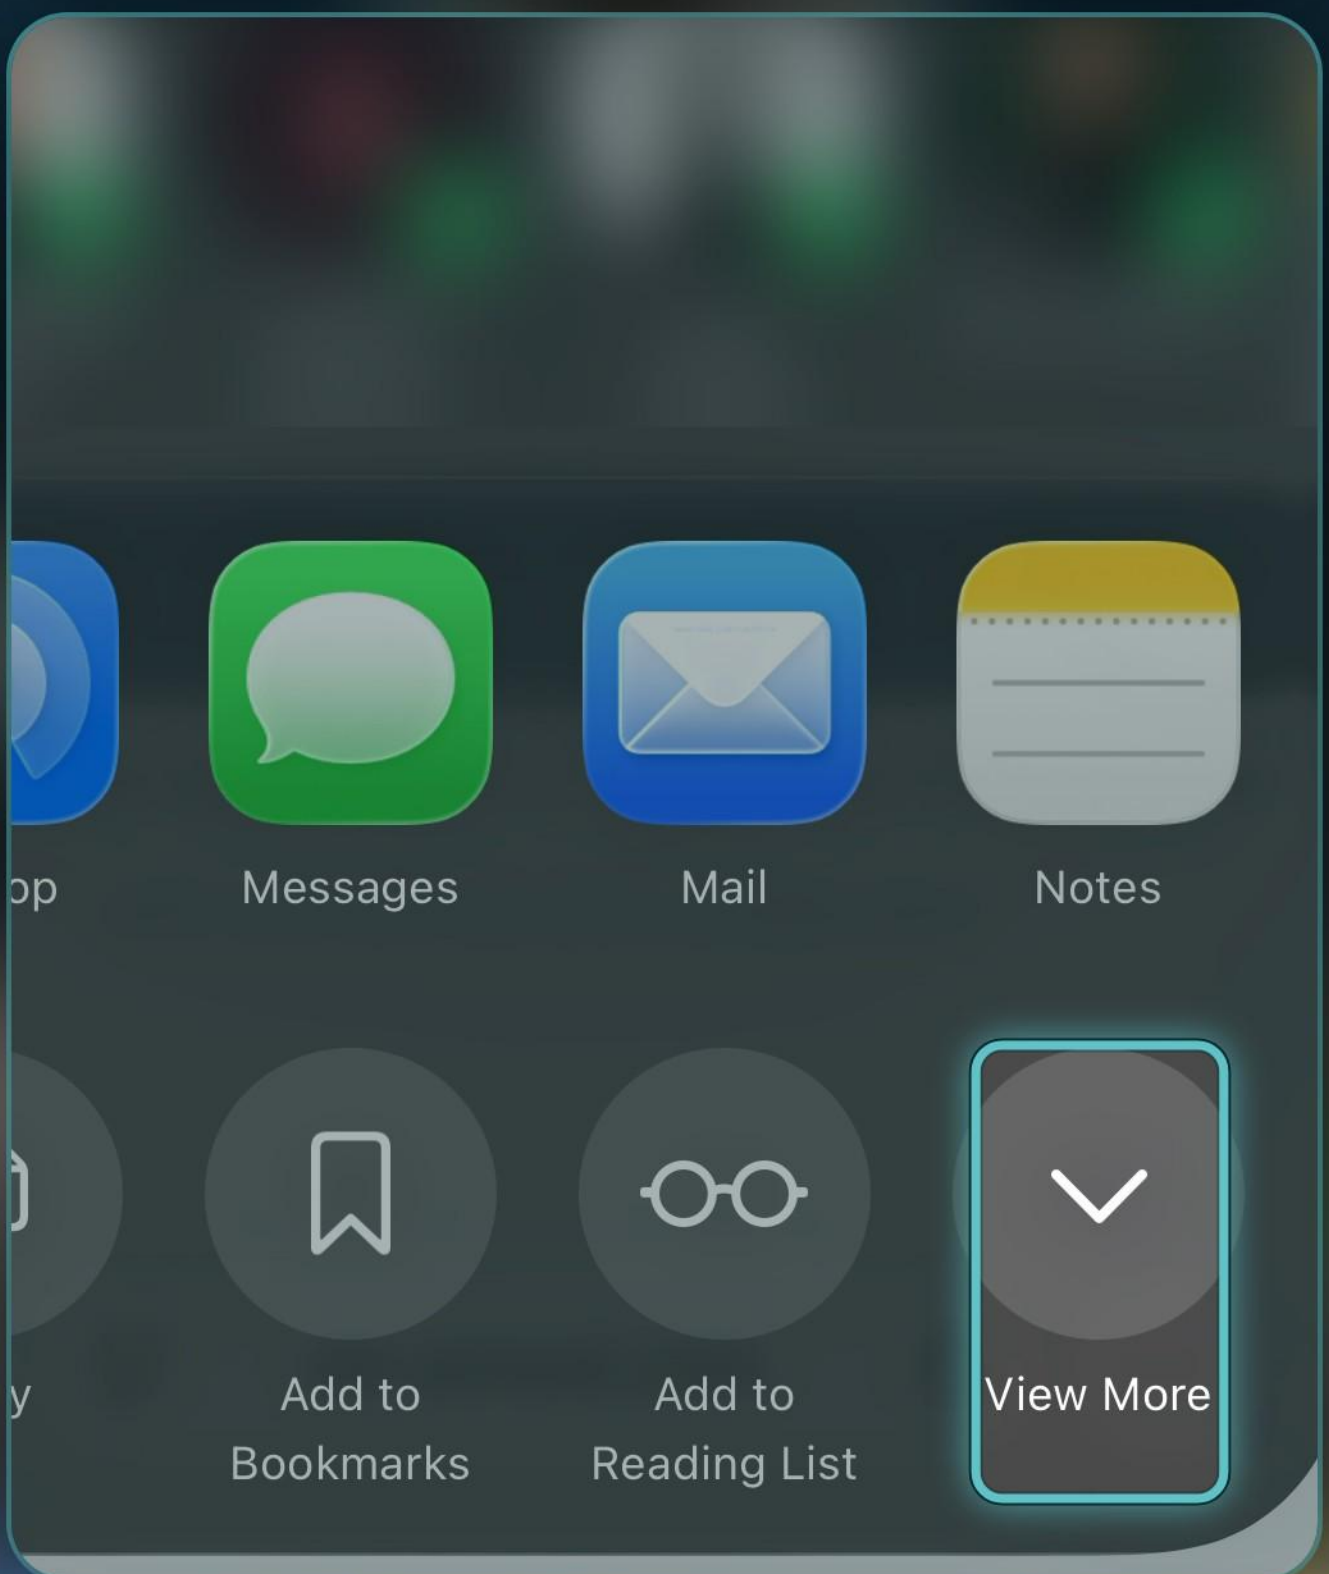

A small menu opens. The first option at the top is **Share**, with a square-and-arrow icon next to it. Tap it.

INSTALL

4 Tap “View More”

The last button in the bottom row

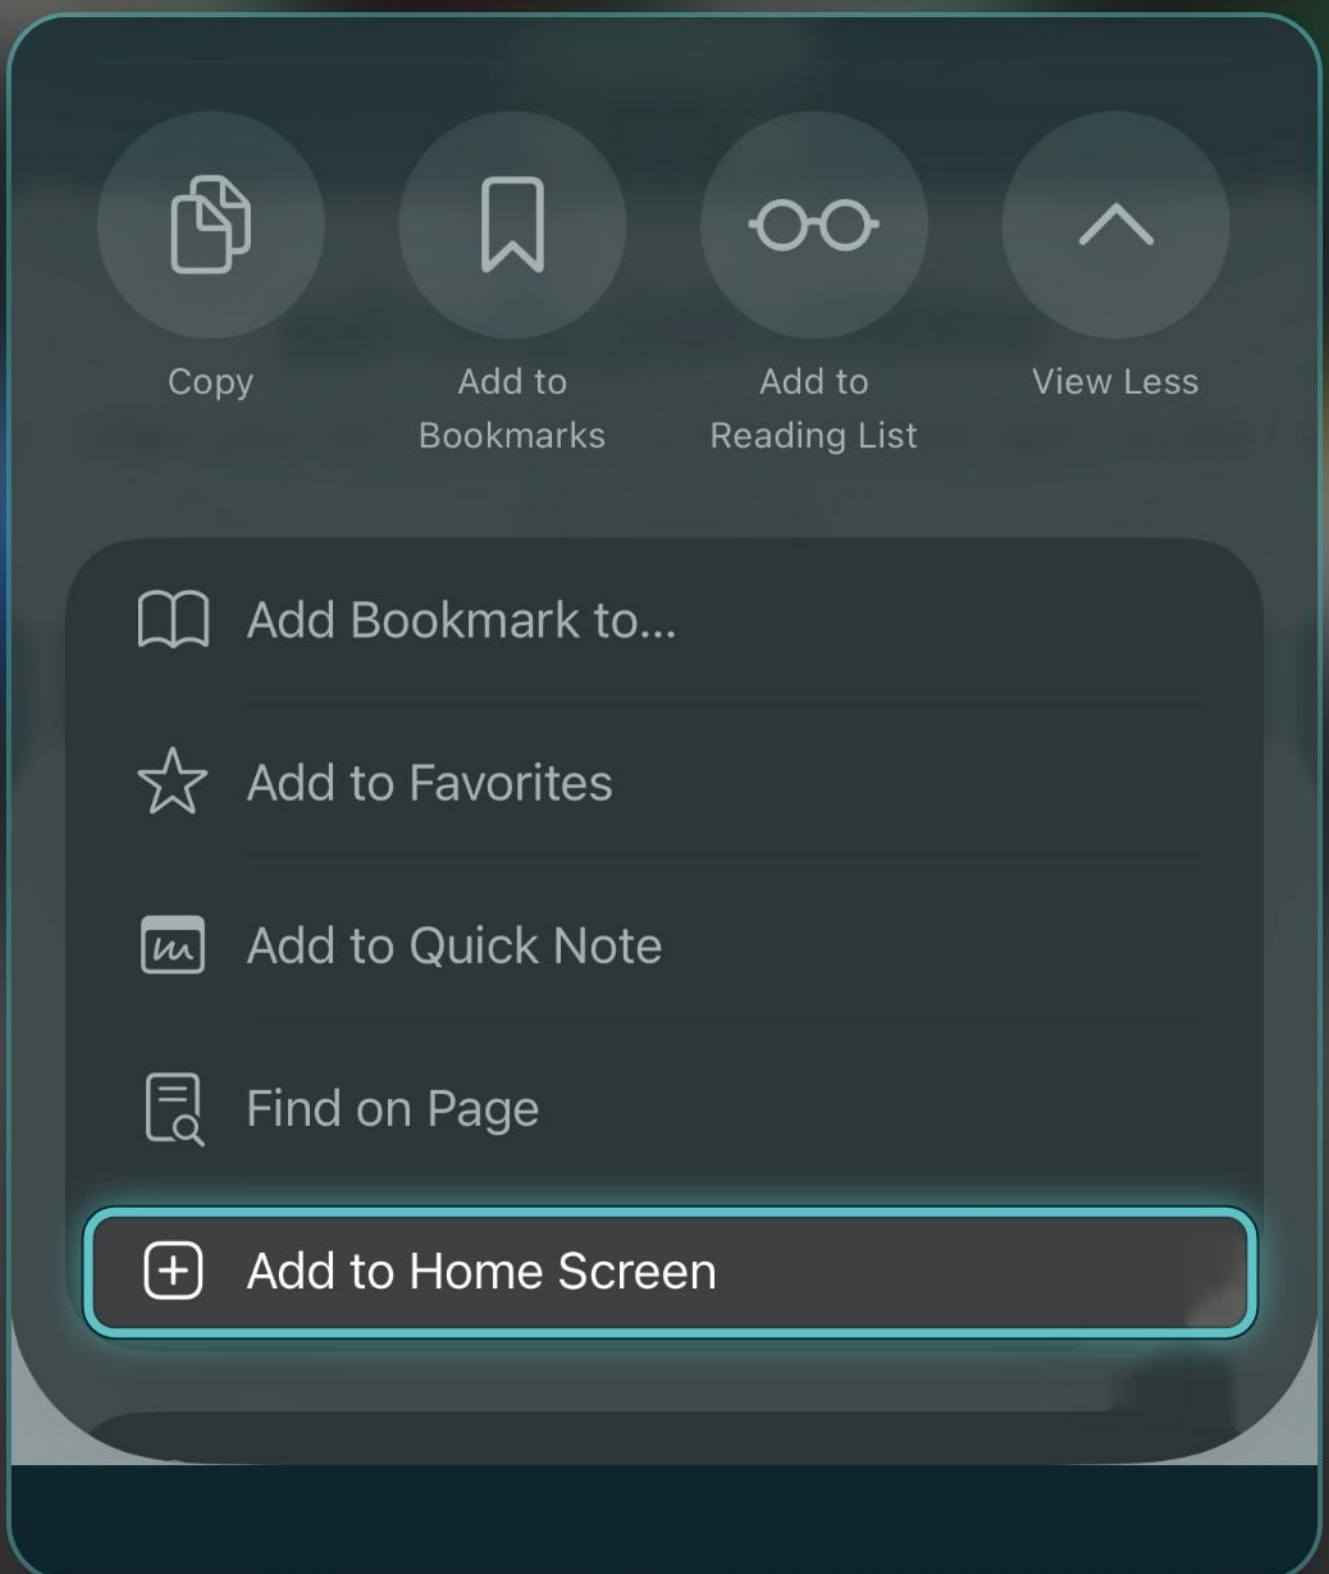

The share sheet opens. Don’t tap any contact or app in it. Go to the last row, and the last button on the right has a down arrow with **View More** under it.

INSTALL

5 Tap “Add to Home Screen”

The last option in the list

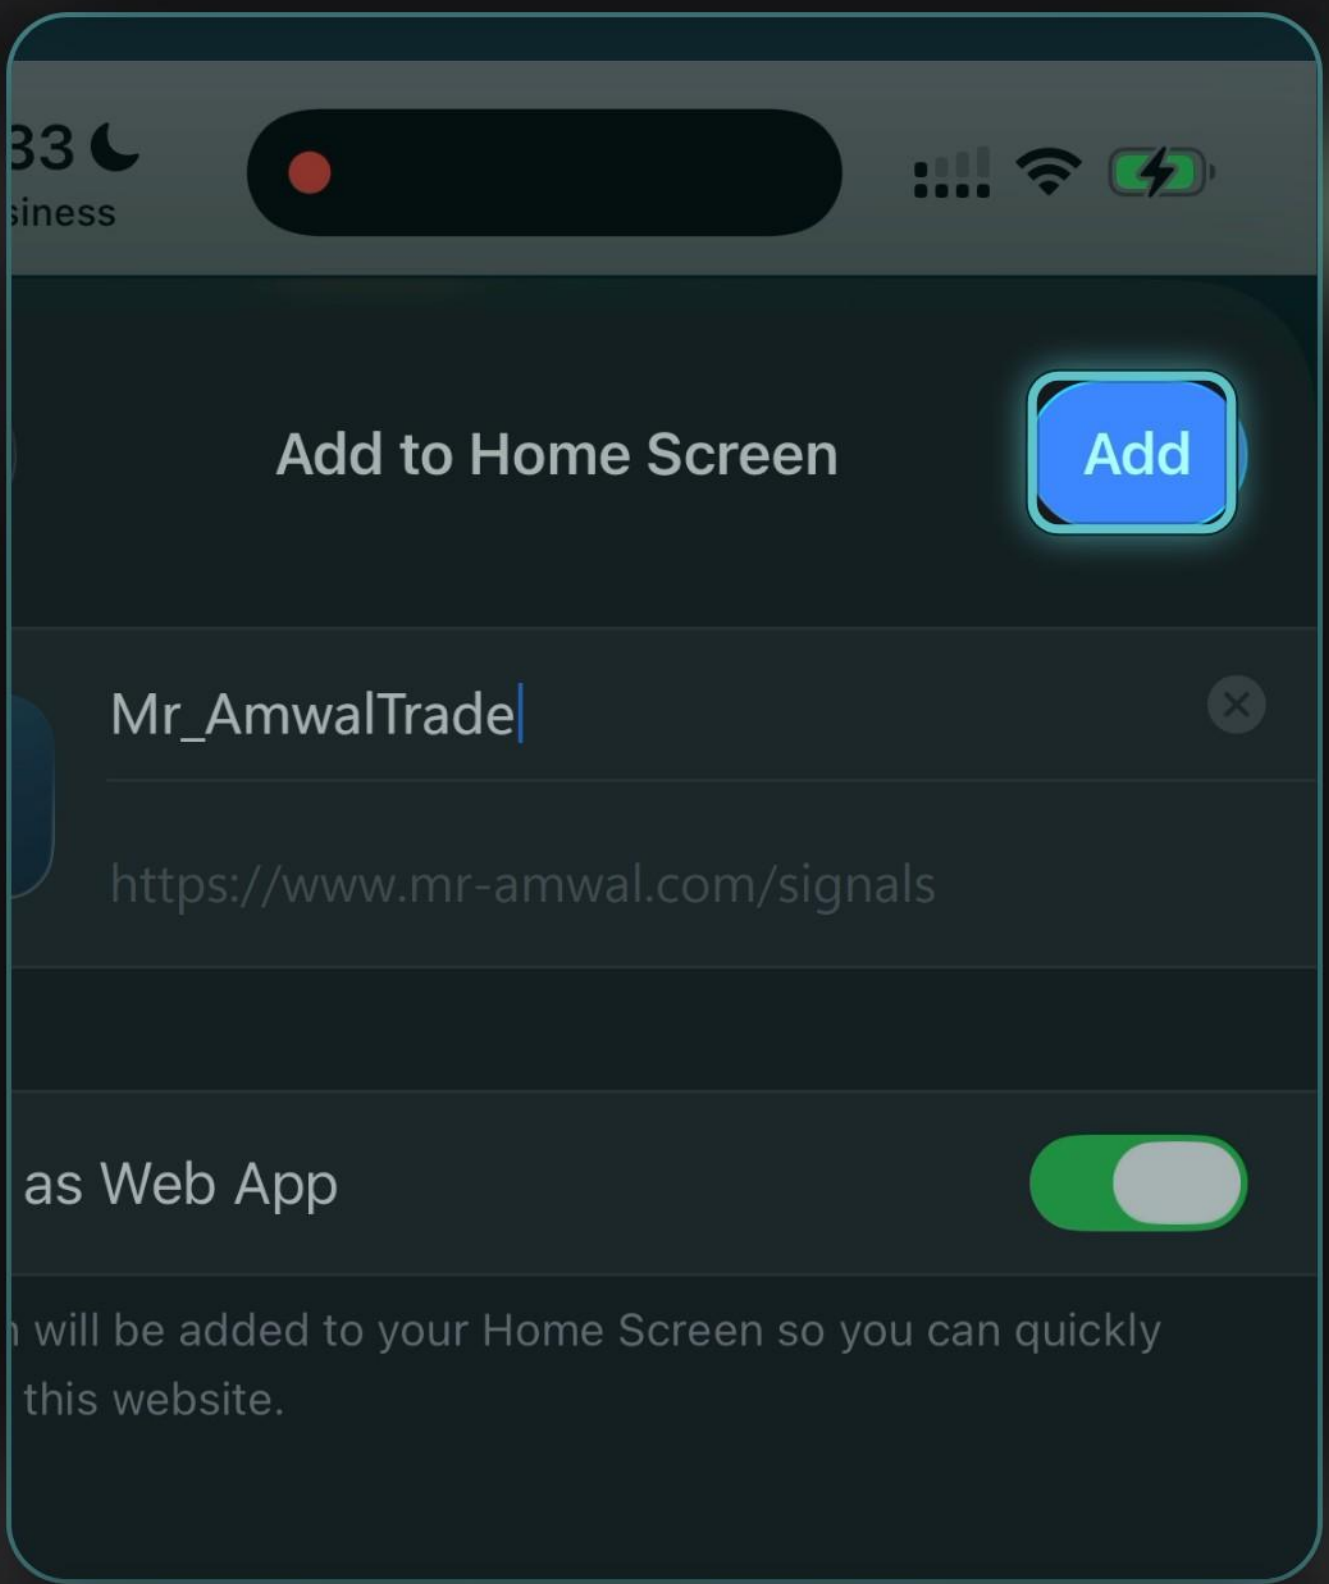

The sheet slides up and shows a longer list. The last option is **Add to Home Screen**, with a + icon next to it. Tap it.

INSTALL

6 Tap “Add” at the top right

Keep “Open as Web App” green

A page opens with the app name **Mr_AmwalTrade** and the link: don’t change anything. Make sure **Open as Web App** is green (it is on by default), then tap **Add**, the blue button at the top right.

INSTALL

Open the app from its icon

Always from here, not from Safari

Safari closes and the Mr_AmwalTrade icon is on your home screen. From now on, **open the app from this icon only**, so sign-in and signal notifications work properly.

CORE STEPS

Tap “Let’s start” (خلّنا نبدأ)

Now the four core steps

Open the OKX app and add a **USDT** balance (deposit or buy), and make sure it is in your **trading account**. The minimum purchase is **$5**. As soon as a signal is issued, you buy it from this balance.

CORE STEPS

4 Buy your first signal in one tap

When a new signal arrives, tap “Buy”

When a signal is issued you get a notification, and it appears at the top of Home. Prices stay locked until you buy. Tap the gold اشترِ (Buy) button, or غيّر المبلغ (Change amount) for a different amount.

After buying you see the trade plan: entry price, stop-loss and the three targets. The exit runs **automatically on OKX**, even when the app is closed. Turn on notifications and tap تابع صفقتك (Follow your trade).

From Home you follow your trade and its profit, and you get a notification when a new signal is issued. Trading carries risk. Stuck on anything? Tap the **headset icon** at the top and our team replies within minutes.

Stuck on a step?

The most common issues, and how to fix them

Can’t find “Add to Home Screen”

The link is open inside Instagram or Telegram. Tap ··· at the top → “Open in browser”, or copy the link and paste it into Safari.

Opened the link in Chrome on iPhone

On iPhone it must be Safari. Long-press the link, choose “Copy”, then paste it into Safari.

There’s no ··· at the bottom

Your iPhone runs an older iOS: tap Share ⇪ at the bottom centre and scroll to “Add to Home Screen”.

It asked me to sign in again

That’s normal. The app on your home screen is separate from Safari, so you sign in once inside it and it remembers you.

I don’t get signal notifications

Open the app from its icon → Settings → turn on notifications → Allow.

The purchase didn’t go through

Make sure your USDT balance is in your OKX trading account, and the amount is $5 or more.
